

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

STATE OF PENNSYLVANIA,  
EXECUTIVE OFFICE, MILITARY DEPARTMENT, }  
*Harrisburg, December 1, 1865.*

*To His Excellency, ANDREW G. CURTIN,*  
*Governor of Pennsylvania:*

SIR :—The undersigned have the honor to submit the following report of the operations of this Department, for the year ending December 1, 1865 :

A complete roster of all the officers to whom commissions have been issued during the past year, is herewith attached. It will be seen from it that three thousand three hundred and two commissions were issued during the year. Duplicate commissions, as heretofore, have been issued in great numbers, as applied for.

This roster includes all promotions, as well as original appointments, during the period specified. The promotions incident to your Excellency's order, directing that a rank should be given every meritorious officer and first sergeant, as a brevet for good conduct, when properly recommended, necessarily increased the business of this office very much, for a time, after the close of the war, and as regiments were successively mustered out. That work is now, however, almost closed, and the decrease of the business of the office will render the attendance of more than one *Aid-de-Camp* unnecessary, after the close of a few months, and such *Aid* can be relieved whenever your Excellency may deem it compatible with the public interest. If, however, your Excellency should continue of opinion, as heretofore intimated, that the work of preparing a military history of the organization of Pennsylvania volunteers and militia, who have been or may be in the "field," as provided for in the thirtieth section of an act approved January 4, 1864, is properly the work of this office, a vast amount of labor yet remains to be done. We have made such preliminary arrangements, with this view, as we deemed best, but in consideration of the insufficiency of the appropriation for the full completion of the work, we have hesitated to go further ; as, to commence such a work, and not carry it through to com-

pletion, would be alike unsatisfactory to the people, and the parties having it in charge. The importance to those who have been in the field, and to their surviving relations, as well as to the people at large, of such a work, it is deemed unnecessary here to discuss, your Excellency having already recommended the same to the attention of the Legislature, and they having endorsed its value and importance, by an appropriation for the purpose. The work will be the enduring history of the men who went forward in the armies of the country, from this State, in the great battle of the world, and should be prepared with scrupulous care, and preserved in an enduring form.

The roster of appointments made since the commencement of the war, has, by constant use, become unavoidably much worn and defaced, and should be carefully copied; and the documents connected therewith should be accurately collated, and placed in a condition that will ensure their permanent preservation, and facilitate reference. This work is mainly clerical, and if your Excellency is of opinion that it should be done, requisite appropriations will have to be asked for.

All which is respectfully submitted.

R. BIDDLE ROBERTS,

*Colonel and A. D. C.*

SAMUEL B. THOMAS,

*Colonel and A. D. C.*
